## PERSONAL STATMENT

### ABOUT | Hi, Im Skyla!

I am a 21 year old designer who has a strong passion for what I do. From a young age I fell in love with art and design, it all started from making decorative cards and clay figures with my gran in the garage and progressed to me completing my degree in Communication Design at the Open Window Institute, where I learnt valuable design skills and how type and imagery can be integrated to create endless possibilities within the visual world.

I aspire to be in a place where my work expands to different parts of the globe in order to inspire ideas and positively shift and transform the world around us, while also making it a bit prettier.

## EDUCATION
